## Ether

Gives an answer to the question "why?"; defines educational goals and objectives.

We'll explore how it manifests in the classroom and how we as teachers can create a healthy ether.

## Air

Gives an answer to the question "what?"; defines the content, subjects, focus, choices, decisions.

We'll explore the ways of creating a healthy air within the learning situation by tapping into our imagination.

## Fire

Gives an answer to the question "who?"; defines our relationships within the learning process.

We'll explore the idea of an "Enlightened Leadership" and the "Community Of Learners".

## Water

Gives an answer to the question "how?"; defines methodology, distribution of knowledge, strategies, flow.

We'll explore the ingredients of this, ever changing element, and find out how to stay in a flow.

## Earth

Gives an answer to the question "where?"; defines the classroom, regulations, structures, policies.

We'll explore the topics of safety, health, environment, activism, service.

The program will be run in a practical way, focusing on authentic experience of the participants.
